

Subject Report

NFPA 1031 (Inspector)

LEVEL I

1-ASCSS

Alberta Codes and Standards

In this 32-hour course students learn and apply the Alberta Fire Code and the Alberta Building Code in a complementary and co-ordinated way.

Certification: 0.00 **Re Certification:** 0.00

1-BCPS

**Building Construction
and Protection Systems**

In this 32-hour course learn the fundamentals of building construction and fire protection systems. It focuses on the elements of building construction and fire suppression that manage the impact of fire.

Certification: 0.00 **Re Certification:** 0.00

1-CSSC-

Communication Skills

This 32-hour course covers all the basic communication tasks required of a safety codes officer. Review basic grammar skills, punctuation, word usage, sentence construction and paragraph building. More job-specific skills are covered in letter writing, report writing, public speaking, electronic research and communication, media and public relations, meetings and interview techniques.

Certification: 0.00 **Re Certification:** 0.00

1-FSFSC

Fire Service Familiarization

This 32-hour course is for anyone who has an interest in becoming a safety codes officer in the fire discipline, but doesn't have experience or knowledge of the fire service. Learn the basic terminology, equipment, and operating procedures used in the fire service. However, it will not provide you with the competencies of a firefighter.

Certification: 0.00 **Re Certification:** 0.00

1-IPESC

Inspector Practical Evaluation

This 32-hour practical evaluation for Fire Inspector Level I is designed to examine whether you have learned the inspection process taught in the Fire Inspector Level I courses.

Certification: 0.00 **Re Certification:** 0.00

1-IPSC

Inspection Procedures

In this 32-hour course learn about the authority and need for an inspection program within your jurisdiction including the requirements for a quality management plan. Examine tank storage of flammable and combustible liquids and the requirements in the Alberta Fire Code for all classes of occupancy.

Certification: 0.00 **Re Certification:** 0.00

1-LFSC

Law for Fire Safety Codes Officers

This 32-hour course guides you through the Safety Codes Act and Regulations and explains how the authority, responsibilities, and limitations of a safety codes officer are derived from these documents. It

Subject Report Continued

deals with all the legalities involved with carrying out the tasks of inspection, investigation, and enforcement.

Certification: 0.00 **Re Certification:** 0.00
1-PMSC

Properties of Materials

This 32-hour course covers the physical and chemical characteristics that affect or determine the degree of hazard associated with flammable and combustible metals and dusts, and compressed and liquefied gases. It also outlines the classification of dangerous goods and the regulations governing their storage and handling. This information is then correlated to the Alberta Fire Code and applied to the inspection and enforcement tasks required of a safety codes officer.

Certification: 0.00 **Re Certification:** 0.00
LEVEL II

1-AINSP

Applied Inspection (Practical)

This 32-hour course encompasses the practical application of the skills and knowledge acquired in Building Evaluation and Plans Review (1-BEPR) and Fire Protection Equipment and Water Supplies (1-FPEWS).

Certification: 0.00 **Re Certification:** 0.00
1-BEPR

Building Evaluation and Plans Review

In this 36-hour course learn to apply codes and standards to plans review and building evaluation so you can identify, document and address all deficiencies. You will also learn to modify existing codes and standards and to recommend policies and procedures for the delivery of inspection services.

Certification: 0.00 **Re Certification:** 0.00
1-CLPSC

Courtroom and Legal Procedures for Fire Safety Codes Officers

When you've completed this 36-hour course, you'll have the skills required to operate effectively within a civil or criminal/quasi-criminal (regulatory) court setting. The course exposes you to legal process (theory) and to practical experience with the judicial process (both civil and regulatory) leading up to and through a trial.

Certification: 0.00 **Re Certification:** 0.00
1-FPEWS
